

# Major Incident ICS Field Response Kit

This ICS 31 Position Major Incident Field Response Kit is the field component of the NIMS. The kit provides the Incident Commander a tool to assign functional positions at the scene of a major incident. In the event of more than one incident occurring within a geographical area, an Area Command would be established. The Area Command would coordinate requests for resources and supplies based on need for all the incidents.

## The Major Incident Field Response Kit includes the following Vests:

- Incident Commander
